Another Walker Wanted.
There was once an American named Walker who played a bold game for a while, as dictator of Nicaragua. He needed but sixty-two American fighting men for the control of the country, which was under his dictatorship for nearly a year. He was shot at last, but had given orders that he understood business. He was a propagandist of slavery, and his doom. If there were now in Nicaragua a good and true man, possessed of Walker's energy, he would find there an open field for the exercise of his moral and political powers.

UPPER PENINSULA NEWS

CLIPPED AND CONDENSED FROM OUR EXCHANGES.

Front Lake is reported to be just as tough as ever. A young man was floored out of 130 the other day while waiting for a train. The rotter's roost should be raided by officials of Chippewa county.

Governor Peck arrived at Hurley last Saturday with several car loads of supplies, including 200 barrels of flour and 5,000 pounds of dressed meats, for destitute miners. Let the road work go on.

Four hundred miners at the Winthrop mine, at Ishpeming, struck Wednesday against being paid in store orders, and the mine will probably be closed for the winter.

The fire department of Ishpeming will help out the poor of that city by giving a charity ball, the proceeds of which will be devoted to the purchase of wood for needy families.

Peter Siedle, of the firm of Parli & Siedle, and secretary and treasurer of the Menominee River Brewing Co., died at his residence in Menominee Wednesday after a brief illness, aged 43 years. He had been a resident of Menominee for 29 years.

The secretary of the treasury has appointed Robert W. Weeks assistant keeper of the Grand Island light station; W. H. Prier keeper at Standard Rock light station; Norman W. Smith keeper at Manitowish light station; Robert Carlson keeper of the light station at Michigan Island.

The timbering in the fourth level of the Pewabic mine caught fire Monday afternoon and 350 men were forced to the surface. The mine has been practically sealed in an attempt to smother the flames and it is not possible to estimate the damage. The Pewabic is the only mine working there and unless the fire is soon smothered, it means a hard blow to the miners.

The Midway Plaisance at Saginaw netted about \$2,000, which will be devoted to charity.

A Charlesvoix man claims to have a preparation for turning dead bodies to stone.

Twenty-four square inches of skin has been grafted on the arm of young Wier who was nearly killed in a machine at the Flint wagon works.

A Bill-dale farmer tried to catch a coon. Instead, he got caught himself. He stuck his head into the trunk of a hollow tree, when, horrors! he couldn't stir. It was a trap. He yelled and yelled, and strained and strained, but no help came. Finally by a supreme effort he freed himself, but there is no skin left on his ears.

The Midway Plaisance and story books about African kings had a bad effect upon two Kalamazoo kids by the name of Willie Harvey and Thomas Wilson. The other day they took two speller boys to the river bank near Zeigsgo and prepared to make a bu at sacrifice. One had was tied securely to a stake, fire was kindled about his legs, and the flames were beginning to burn the poor lad's clothing when the other smaller boy cut the cords and let him free. Then the kings, angry at this sacrilegious interference with their rites, took the rescuer and tied him to the stake. His coat took fire, and outsiders stepped in just in time to save his life. The African kings now propose to emigrate to Hawaii.

WHI carry Contributions Free.

General Manager Fitch has sent to all agents of the D. S. S. & A. railroad the following circular instructions:

This company will carry free, contributions of food, clothing and other supplies for the destitute miners of the Gogebic Range from any station on the line.

When destined to Bessemer Hill to that point, and when destined for Ironwood and Hurley bill to Saxon, Wis.

All such supplies to be consigned to the mayor of the city or which they are included.

These instructions to remain in effect until further instructions.

The Old Clock and the Flag.
There is an old clock in the office of the secretary of war which is the only piece of furniture that was there when Jefferson Davis was secretary of war forty years ago, under President Franklin Pierce. The clock, which is a specimen of what was in style in the way of mantel time-pieces during the empire, is covered by a glass case and has a perfect time. Over the mantel on which it stands is another glass case containing the flag that was wrapped around Lincoln's casket on the solemn march from Washington to Springfield in 1865.

PORTAGE ENTRY

Gone Before.

Died, on Tuesday, Nov. 28, 1893, at her home in Jacobsville, Mrs. A. H. Hineckley, aged 37 years.

Although Mrs. Hineckley had been in poor health for some time she did not take to her bed until a week before her decease. The immediate cause of death was cerebro spinal meningitis. The deceased had resided in Jacobsville about five years and was considered a woman of strong social qualities and one who possessed the friendship of all who knew her in a marked degree. She leaves a husband, two sisters, two brothers and an aged father to mourn her loss, to whom the sympathy of the entire community is extended in the hour of their deep affliction.

Funeral services were conducted at the home Wednesday morning, by the Rev. G. I. Genell, Congregational minister, of which church the deceased was a faithful member. The remains were taken to Bangor, Mich., for burial by her little daughter who preceded her to the other shore eighteen months ago.

Toilettes for Ladies.

For stylish evening costumes the silks of the present season have never been surpassed in fanciful variety. The interweaving of two or more colors predominates in these tissues and produces novel and original effect in blending shades, which are still enhanced by the glistening moire surface that is given to many of them. Among other novelties the broche moires are particularly attractive, having delicate broche figures of one color standing out against the watered ground of a contrasting color. A rich brocade for reception gowns is called "damas camden." This material has repped ground in some solid color with a design in satin of the same color shot with white. The painted bengalines are evening silks with light grounds, having printed Pompadour bouquets which look as if painted in water colors. They are often combined with a new velours peluche. These items, as well as many others equally attractive, are to be found in the McDowell Fashion Magazines just received. The latest numbers of these artistic publications maintain still their high standard of excellence, which makes them of inestimable value to all devotees of fashion, and easily accounts for the wide spread admiration they secured at the World's Fair. A special new inducement has been introduced in the shape of pattern coupons, by which one can secure many novelties at moderate prices. "La Mode de Paris" and "Album of Fashion" only cost \$3.50 a year each, or 35 cents a copy. "The French Dressmaker" is \$3.00 per annum or 30 cents a copy, while "La Mode," the home fashion magazine above all, comes at the moderate price of \$1.50 a year or 15 cents a copy. If you are unable to procure any of these publications at your own place, please send the money by mail to Messrs. A. McDowell & Co., 4 West 14th St., New York.
